For the attention of the solar manager

Just a short note to say how pleased we are with our ENVIROSOLAR PV system; just 8 days from initial contact to generating electricity – remarkable! There was no hard sell from your sales person, only useful facts based on our energy usage showing how we could save on electricity bills particularly as our property is all-electric. This convinced us the ENVIROSOLAR PV system would not only save money but be a good long term investment. Your installation crew were excellent and completed the job in a very professional manner using class leading components. We also liked your choice of British made PV panels that significantly reduced the manufacturing carbon footprint. As a micro generation scheme supplier, we would thoroughly recommend ENVIROSOLAR.

Yours sincerely

Roy M Sheppard
